The secret to happy employees

Why corporate wear deserves the same attention to detail and quality as our everyday clothes

No two companies are the same, neither are their employees. That is why, it is important to provide individualized and tailor-made work wear solutions. So that everybody and every body can feel confident and comfortable when dressing for work.

“The secret to happy employees is hidden in how you care for them. Believing that everybody and every body deserves to be dressed comfortably to tackle any obstacles.”

The most important resource for any company are the employees. Their wellbeing is the real key to success.

Feeling strong, self-confident, and presentable brings out the best in people. Let your employees be at their best every day.

Our understanding for design and style combined with our knowledge of materials and qualities, puts us in a unique position to create knitwear. Knitwear that is made with innovative and high-performance qualities. With focus on fit, comfort and the well-being of the wearer

In this catalogue, you will find all you need, to dress any company. Across borders of industries, cultures and countries.

**Work wear that
doesn't feel
like work**

Think global, act local

We support our local community

At Clipper A/S we have always made it a priority to support local businesses and our community. From the beginning when our knitwear was knitted in the homes of local ladies to the way we think and operate today.

We purchase and deal with local suppliers and support small businesses.

“For this catalogue all pictures are shot in and around our home city Herning. The city that created Clipper, the city with a long history and tradition in the textile industry. A tradition that we take great pride in.”

We were privileged to shoot on location at some of the local businesses, such as Hotel Eyde, Karup Airport, Ikast Automobiler, Herning Library and optician NytSyn Herning. A choice taken to tell the story of how all styles comes to life in their element when being used.

“

Corporate wear that serves as an extension of the company, the profile to the outside world, as a means to unite and create common ground and most importantly to make sure that every employee, is dressed to look and feel their best.

The story of a visionary man

With an understanding for knit and craftsmanship thus laying the foundation for us to become knit experts

In 1955 the passionate entrepreneur Bernhardt Sørensen founded Bernhardt Sørensen A/S, later to become the house of Clipper. Bernhardt started out by using highly specialised knitting mills located in small, local factories. A business model we still use to this day, with partners around the world carefully selected for their specialised knowledge and technical skills.

In 1982, the house of Clipper opened a factory in Herning and kept the production there until 1998. We still have our own factory, but today it is located in Latvia, and we produce most of our knitwear in Europe.

“Many things have changed since 1955, but our core skills are still the development, production, and distribution of classic quality knitwear.”

Bernhardt Sørensen's passion for the finest quality and craftsmanship as well as his ability to spot the latest trends in materials – knitwear in particular – is our foundation. We are proud of our legacy and our ability to move with the changes of time, while upholding both our traditions and our craftsmanship.

In 2015, the house of Clipper merged with Belika. Belika, another knit specialist was founded in 1933 in Ikast. The house of Clipper and Belika have more than 140 years of experience combined. Now operating under one name – Clipper A/S.

In the early 1990s Clipper Corporate was created from the belief, that corporate wear deserved the same attention to detail and quality as our everyday wear. With a desire to create workwear and uniforms that felt and looked like the clothes that employees would choose and wear themselves.

All styles are created with this concept in mind – corporate wear that is dynamic and versatile, so that employees are dressed to adapt to a multifaceted work life. Made to withstand even the most challenging circumstances, under even the roughest conditions and in any climate.

That is how Clipper Corporate came to be. Built on a foundation of knowledge, experience, and craftsmanship from decades of tradition for quality, design, and passion from two strong houses of knit who joined forces.

“

We are rooted in respect and understanding for the craftsmanship, built on the foundation from a visionary man 67 years ago. Carried on by innovation and creativity. With a consideration for the world, we are a part of and a deep seeded knowledge that we would be nothing without our employees and customers.

CSR and sustainability

Clipper A/S is committed to contribute to a more sustainable production in an industry that traditional is known for its waste and use of the planets resources.

Any real and lasting change starts within, which is why Corporate Social Responsibility (CSR) is an instrumental part of who we are, how we act and how we operate. In a world where fundamental resources are becoming scarce by the minute, being aware of CSR is a driven force and an intertwined factor in all aspects of our business. That is non-negotiable.

We are guided by our strong moral and ethical standards demonstrated by our transparency. Furthermore, are we always following the strictest guidelines in regard to societal and environmental concerns.

To facilitate the grounds for positive change, we comply by the declarations and conventions of the 17 Global Goals, the UN Global Compact and the REACH regulative.

Moreover, we fight waste, yarn waste, be it from overproduced raw materials or surplus finished garments, we donate it

to charitable organizations. We also think about our consumption of cardboard and paper and use recycled Nordic Ecolabelled paper for printing and our import boxes are always re-used for export shipping.

“At our factory in Latvia the steam produced from production, are being reused at the next-door factory, making sure no resources go to waste.”

To increase the health of our employees, a physiotherapist has helped each employee to optimize their workstation. Furthermore, we have gymnastics in the office every day - not only to improve the daily well-being, but also to strengthen social relations.

We wish to promote and be part of the solution for a more ethical and sustainable way of producing and consuming.

Clipper A/S is committed to making an effort and paving the road ahead - in the hope of a better tomorrow.

Our values and beliefs

Made in Europe - at our own factory in Latvia

Because this provides us with full transparency at every stage of our supply chain pertaining to areas such as e.g., labour practices, standards of safety and raw material sourcing.

What we do matters and makes a difference

Which is why we operate in accordance with the 17 Global Goals with focus on education, responsible consumption and production, good health and well-being and decent work and economic growth.

Animal welfare is important to us

Since many of our products are manufactured from wool, one of our main focus points is the welfare of the sheep, which supply the wool. That's why we use mulesing free yarns only as well as ethically sourced yarn.

Relations founded in our core values

Defined by our commitment to and membership of the Ten Principles of the UN Global Compact. The principle-based framework stating ten principles in the areas of human rights, labour, the environment and anti-corruption.

Children's welfare is at our heart

For many years, we have supported Land of Hope, a non-profit organization fighting for children in Nigeria and their safety. Clipper A/S sponsors a nurse for the orphanage so the children can get the right care.

Sustainable production is a given

We only work with suppliers committed to reducing the use of chemicals, water and dyestuff in all processes of manufacturing. All our yarn meets the STANDARD 100 by OEKOTEX® for raw materials.

Code of conduct is our promise to be committed

The way our suppliers do business is our responsibility too. All suppliers must agree to and sign our Code of Conduct as well as obeying by the REACH regulative. These practices prevent the use of hazardous chemicals and protect human health and the environment.

“

The price of knitwear should not be at the cost of the environment. Therefore, break the cycle of buy and toss. Choose well-made pieces that are versatile and classic, so they can be worn season after season. Being mindful is always a good look.

The beauty in the difference the strength of unity

Wear the feeling of confident

It is possible to achieve a uniform look
with respect for individuality.

Let your personality shine through
and embrace the diversity.

Welcome to our universe of knit

Unzip a world of endless possibilities

Decades of experience have made us experts in the knitting realm, and we are here to give you all our knowledge and expertise. Making sure finding the right apparel is as easy and smooth as possible for you. That is what we always strive for.

“We have taken all our bestsellers, the good bits and coming up styles and collected them in this catalogue.”

We have simplified and modernized the collection so you can choose from tried-and-true premium styles.

To improve your experience and ease of use when reading this catalogue, and to facilitate the process of finding the perfect style for your needs, we have divided our entire collection into three main groups: corporate wear, work wear and uniforms.

Each group is visualized by a symbol, depending on performance and suitability for use and wear. You will find these symbols next to each style.

All styles are named after cities, and all styles belonging to the same city are made of the same material, so you can mix and match and still achieve a uniformed look.

Additionally, we have streamlined the colours across city groupings so they can be combined and still remain homogeneous.

The last chapter of the catalogue is a style overview where you will find a table of all styles in each city grouped together.

Happy reading and enjoy finding your new work wear!

Corporate wear

Styles with this symbol shows they are perfect for corporate wear such as retail personnel, beauty industry and office staff. Ideal for a presentable look and for those employees acting as the face of the company.

Work wear

Styles with this symbol shows they are perfect for work wear such as warehouse workers, craftsmen, bus-, train- and taxi drivers. Made to be practical, functional and very durable and can therefore withstand a lot of use.

Uniforms

Styles with this symbol shows they are perfect for uniforms with a more authoritarian connotation. Designed with epaulettes and signal value. Perfect for employees in the security, fire, rescue and authority sector.

Stock items

Styles or colours marked with this symbol shows they are stock items. Stock items are styles or colours produced in accordance with lot sizes and availability of raw materials. However, the majority of the catalogue consist of NOOS styles.

Slipovers & vests

Vests that underline the business concept

Presentable work wear for staff with style

First impressions count, which is why the appearances of the staff makes a big difference. Especially in the hospitality industry. Whether you run a cosy café or a fine dining restaurant, uniforms tell a story of who you are and reflects your brand. That is why it is important that guests are met with elegance and sophistication the moment they walk in the door.

Vests are part of the uniform for many restaurants and bars underlining the atmosphere. Furthermore, vests serve as protection of shirts and t-shirts making sure the staff always looks stylish and presentable.

Made in a wool blend the vest is very durable and practical as well as breathable and comfortable. Manufactured in a non-wrinkle material it is iron free, so your staff look and feel fresh even after hours of work.

Vests that wash and wears repeatedly without losing quality and fit. That serves your business.

Copenhagen

Copenhagen

The city that named our most versatile and inclusive collection

Copenhagen is known for being one of the happiest cities in the world. Moreover, Copenhagen is home to excellent Danish cuisine, outstanding public transportation system, stunning churches and enlightening museums. And even Christiania, the community known as the original free town, with its own rules and regulations and attraction for people from all walks of life. Copenhagen is open minded and accepting be it food, alternative culture, modern furniture design, high-quality fashion and futuristic architecture to Amalienborg palace, in the heart of Copenhagen, where the Danish Queen Margrethe the second still lives. The Danish royal family is the oldest continuing monarchy in the world.

A vibrant, multifaceted, prejudice free and embracing city and exactly why we named this collection of knit for Copenhagen. As this collection represent the foundation for inclusivity and embraces all.

Our hero and bestseller collection - with Copenhagen you will find our deepest and widest range, consisting of a wide variety of knit, making it easy to find a style fitting for all employees in various functions. Therefore, you will find it easy to achieve a uniform look, with respect for individuality. Made in a fine gauge merino wool blend, it is the perfect mix between luxury and practical. A style with durability, great shape retention and high pilling resistance. A very presentable and all-round collection. Just like the beautiful city of Copenhagen.

Milan

The majestic city that inspired our more fashion forward collection

Milan is the largest city in Northern Italy and is widely renowned for its strengths within the fields of art, design, fashion, commerce, finance and culture. Milan is considered as one of the world's four fashion capitals. Suffice it to say that iconic events such as Milan Fashion Week and Milan Furniture Fair plays a huge part in that honour. Furthermore, Milan is famously recognized as an art city. Leonardo da Vinci spent a vast amount of his life there. Creating the immortal painting The Last Supper which still to this day hangs in its original place, on the wall of the dining room of the former Dominican convent of Santa Maria delle Grazie. Both are listed as a UNESCO World Heritage site.

One of the most iconic landmarks of Milan is the Milan Cathedral, Duomo. The impressive masterpiece took more than 600 years to complete.

Milan is a symbol of hard work, dedication and an impressive sense of fashion and art. Much like our collection Milan which is named after the incredible city. This collection draws from connotations such as fashion, simplicity, quality and pure style through and through.

Milan is sourced from 100% merino wool in a yarn developed especially for us. Fine gauge, extra twisted yarn for durability with the benefits of wool such as moisture wicking, temperature regulating, odour resisting and anti-wrinkle. Made to withstand wear while continuing to look good. All contributes to Milan being high quality, pure luxury and the premium choice. Ensuring the high quality with no compromises that makes it possible to work hard and remain fashionable.

Cardigans

Durable and comfortable

Work wear for everyday use

A cardigan is the most versatile piece of clothing. Throughout a working day the temperature can fluctuate making it difficult to dress accordingly. But with a zipper cardigan it is easy to layer on or off depending on the weather.

The purpose behind a uniform is for others to easily distinguish who is working and a visual reinforcement that the person wearing the uniform is doing an important job. Furthermore, it will instil a sense of security for the customers as it gives a feeling of authority.

Stockholm

The glitz of the city and the calmness of the nature is what we named our flexible collection after

Stockholm is a beautiful mesmerizing city and known as the city of contrasts. Fancy bars, high-class restaurants, modern galleries and exclusive department stores are situated next to the breath-taking nature with the omnipresent sea and lake. And wherever you look you are met with the scenery of parks and green areas. The distinct contrast between urban and nature, modern and historic, trendy and traditional are characteristic of Stockholm.

More than 70 thousand Stockholmers ride their bike in their everyday life each day. Stockholm sits on 14 islands that are connected by 57 bridges, and the water is so clean you can drink it, swim in it and fish in it. Stockholm resides over three UNESCO World Heritage sites: the Royal Palace at Drottningholm, Skogskyrkgården (The Woodland Cemetery) and the Birka archaeological site

Stockholm is open and welcoming, efficient and reliable. Exactly like our Stockholm collection of knit. The collection that is made of contrast when blending cotton and acrylic, to achieve just the perfect mix of resilient yet soft which is our Stockholm.

Made in a fine yarn cotton blend and knitted in a fine gauge. The properties of cotton such as softness and wearer comfort combined with the performance of acrylic makes Stockholm a unique collection that is highly durable and functional. The clean minimalistic design gives it a classic and elegant feel.

Porto

The city that is unpretentious and highly efficient, just like our Porto

Porto lies along the Douro River, just at the mouth of the massive river, right before it reaches its end in the Atlantic Ocean. Porto is in fact the only European city, which have six bridges, all crossing the Douro River. Stunning bridges all standing as a testimony to the beautiful architectural craftsmanship Porto is known for. Porto's historic centre is named an UNESCO World Heritage site. Mainly due to the impressive and ancient cityscapes. In the old parts of the city there is a wealth of astonishing churches made in remarkable architecture.

Furthermore, Porto is famously known for their Port wine, which is ironically not made in Porto but in Douro Valley. Port is however aged in wine cellars in Porto.

Many facades in Porto are covered in tiles called Azulejos, beautiful ceramic tiles glazed in ornamental art. Beautiful but serving as protection against humidity.

The sturdiness and practicality of the Azulejos tiles, is just like our Porto an effective protector against the elements and shield against both the cold and warmth.

Made in a wool and acrylic blend our Porto is the cardigan for all occasions. A traditional piece of clothing functional as both outerwear or as a middle layer over a tee and under a jacket. Making it perfect for those in between situations where the temperature fluctuates, as it is easy taking it on or off depending on the climate. The density of the material makes it robust and sturdy, so it can withstand being used and worn. Without losing its shape and softness.

Porto Womens

Valencia

The city with sun and science named our collection of T-shirts and polos made in an innovative material

Valencia, a 2000-year-old city and the third largest in Spain – and the origin of paella - is an interesting mix between preserving and respecting their cultural heritage while merging with a more contemporary outlook. Among one of the most famous landmarks of Valencia is the Arts and Science complex, created by Santiago Calatrava. One of the buildings in the complex is “The Eye of Knowledge” demonstrating the superior and futuristic architecture. A sharp contrast to the modern-day complex is the historic old town of Valencia. Comprised of several impressive, prominent and beautiful landmarks. The Lonja de la Seda, an UNESCO World Heritage site being one of them.

In Valencia the sun almost always shines, with more than 300 sunny days, the temperature and climate invites to wear apparel such as T-shirts and polos.

So, what could be more fitting than to name our biggest collection of T-shirts and polos after Valencia?

Valencia is made in a cotton blend, our B-dry, for a soft feel. A style with durability and great shape retention. So that even after a long day's wear it still look and feel fresh. B-dry is an innovative and smart material known for its ability to regulate the body's temperature and for its moisture-wicking properties. Moreover, B-dry is also highly breathable and quick drying. Rendering it perfect to be used in strenuous situations where the wearer tends to sweat, as Valenica will provide a great level of comfort.

Sportwool

Our hero fabric that created the perfect substitute for a shirt and knitted in the most comfortable material

Tired of smelly synthetic fibres and sweaty cotton polo shirts? Then what you need is Sportwool!

Sportwool is based on the principle of combining the best in modern man-made fibre technology with the proven attributes of ultrafine merino wool

This combination provides a micro-climate environment, which draws vapour away from the skin, expelling it out into the atmosphere, leaving you drier and more comfortable.

There are many benefits that the Sportwool vapour technology brings. All of the Sportwool qualities have one thing in common: a dryer and cooler microclimate between skin and clothing that absorbs and transfers moisture without touching the skin, fast drying time and natural odour resistance.

Sportwool offers some practical advantages, which makes it uniquely suited for corporate wear: non-wrinkle; no need for ironing, quick drying time after washing, great colour stability - no difference between new and old polo shirts among the staff which provides a uniform appearance despite differences in care.

The secret is, you will find your new favourite polo here. Sportwool is value for money with regard to functionality, as well as comfort and durability.

Munich

Blouses

The face of the business

Corporate wear that helps build the brand

With a wide variety of blouses and business attire, it will be possible for all businesses that need a presentable and formal looking uniform, to find their signature style right here.

For a lot of businesses, the staff are a representation and elongating of who they are and what values they wish to portray. Therefore, being the customers first point of contact, it is extremely important that the staff are dressed to reflect that.

Authorities

Uniforms designed to convey authority

Chosen, tested and adapted to ensure the comfort and freedom of movement for the wearer

A collection of knitwear with focus on signal value and function, designed to convey authority. Knitwear that features epaulettes as well as shoulder- and elbow patches. Especially developed and perfected for the security, fire and rescue sectors. E.g., security guards, police officers, custom authorities and the home guard.

When working as an authoritarian figure the uniform plays a very big and important role in the job.

Uniforms that signals the wearer is a trained professional and on duty carrying out a valuable task.

The uniform strengthens the feeling of being part of a team and plays a major role in the level of confidence and sense of pride.

Furthermore, wearing a uniform makes it easy for the public to decipher the role of the wearer and the respect that is associated with wearing a uniform.

Achieve a strong and recognizable visual presence in knitwear designed to be durable and convenient to wear.

Oslo

The intriguing, picturesque city up north has named our collection of durable knits

Oslo is beautiful situated at the end of the Oslo fjord, a wide waterway that connects Oslo with Skagerrak strait that leads to the North Sea. With an extensive shoreline providing a scenic and spectacularly view over the blue waters on one side and the forests on the other side. A vast woodland being Nordmarka with recreational areas and home to outdoors activities such as hiking and biking in the summertime and skiing in the winter. The perfect spot for nature lovers. Oslo is named the European Green Capital due to its efforts in promoting sustainability living. And the residents of Oslo are rated as some of the happiest people in the world.

Oslo is the home of the Nobel Peace Prize that since 1901 has been awarded to chosen contributors of promoting peace. It is the only Nobel prize that is awarded outside Stockholm.

Furthermore, Oslo is a city with history and many educational and amazing attractions. The National Gallery houses the world famous painting the Scream by Edvard Munch. Moreover, Oslo has a lot of museums paying homage to their heritage. The Viking Ship Museum is where the world's best preserved Viking ships lives. Norwegian Armed Forces Museum tells the tale of how the Norwegian forces has defended Norway through the centuries.

In 1870 author Bjørnstjerne Bjørnson called the city "The City of Tigers" as he perceived it as a cold and dangerous place. Just like our Oslo collection protects against the harsh elements, provides security and acts as a shelter.

Oslo is made in a merino wool and acrylic blend for a soft yet durable quality. Knitted in Milano knit, that is made from two sets of yarns knitted diagonally, making it very sturdy. The coarse gauge ensures a heavier knit making it extremely form stabile.

Outerwear & knit jackets

Get dressed for the ride ahead - let the clothes do the talking

The reflection of you and the road to work wear that encourages trust

Working as a taxi driver means being in contact with many different people every day, which requires the work wear to be neutral and the overall appearance of the clothes need to be professional looking and well-groomed.

When working behind the wheel for long periods of time it is necessary that the clothes worn, offers comfort and are durable with a high level of freedom of movement. Furthermore, getting in and out of the car numerous times a day requires that the clothes keep looking fresh and proper – even after a long shift.

With a polo-shirt and a classic jacket it is easy to obtain a look that is smart without any restrains. Here focus is on functionality and wearer comfort in a look that is presentable at all times.

Driven by the right attire

When presentation matters and first impression counts

When working as a car salesperson there are some different requirements as opposed to working in many other sales jobs.

Between walking in the garage where there are oil and dirt, to walking in the car lot meeting customers, the clothes must be able to handle the pressure and wear and tear of everyday use.

Long days of getting in and out of cars requires the outfit to be flexible and wrinkle-free in order to always look polished.

Often times car salespersons are working in varying temperatures when presenting cars both inside and outside and in all kinds of weather. Therefore, it is essential wearing breathable and temperature regulating knit and a jacket that is easy to throw on or take off.

In a knitted pullover and a classic jacket, it is possible to achieve a very presentable yet very practical look. Be dressed to be meeting customers and representing the business.

Business casual attire in muted neutral colours.

How to measure

For a perfect fit and great comfort

Our measurement chart is based on your chest width. For greatest accuracy, please measure directly on your body and, if possible, have someone take your measurements rather than yourself. Measure around the fullest part of your chest - as shown on drawing - keeping tape under your armpits and around your shoulder blades.

Your chest width will correspond to a recommended size in our measurement chart.

Body measurements - men/unisex

Size	XXS	XS	S	M	L	XL	2XL	3XL	4XL	5XL	6XL
Chest (cm)	80-85	86-90	91-95	96-100	101-105	106-110	111-115	116-121	122-129	130-138	139-145

Body measurements - women

Size	XS	S	M	L	XL	2XL	3XL	4XL
Chest (cm)	80-85	86-91	92-97	98-103	104-109	110-117	118-125	126-134

What can we do for you?

You can choose from one of Europe's largest selections of stock knitwear and benefit from our years of expertise when working on special projects

Knit essentials that transcend time and place. Meticulously handpicked for their enduring style and effortless longevity. Made of carefully selected yarns chosen for their luxuriously feel, durability, softness and lightness.

We are here to introduce knitwear to the workplace. Clipper Corporate was born out of passion for knitwear and quality.

Having a complete and optimized value chain allows us to control all activities and processes. From idea to manufacturing - from raw materials to delivery

We offer a wide range of NOOS styles to promote greater flexibility. Furthermore, we have an extensive variety of tailormade solutions catering to your specific needs - may it be logo design, embroidery, or knitwear in company colour.

As our customer you will get access to our stock and B2B online webshop which means it has never been easier for you to order what you need when you need - and even with day-to-day delivery on thousands of readymade styles.
